

June 1st 2007 Open House Celebration

Seminars

Wonderware InTouch 10 Demo

10:00 – 11:00 am

Ready for new, updated Graphics in InTouch? Check out the new Graphics Editor complete with gradients, vector graphics, textures, and .NET embedded scripting. Wonderware continues to include new functions from the Archestra toolset including the ability to manage both custom symbols and whole InTouch applications.

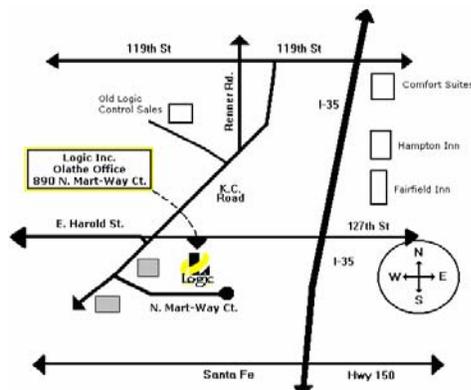

Arc Flash Mitigation Using Fiber Optic Technology

1:30 – 2:30 pm

Consequences of an arcing short circuit or earth fault within medium or low voltage gear can be very serious. An arc can destroy costly equipment, and cause prolonged and expensive downtime. Furthermore, an arc can cause serious injuries to personnel. John Milla, Regional Manager of ABB Power Products, Relays and Automation, will discuss and demonstrate the unique ABB REA product offering, which includes a sophisticated, high-speed relay system, extension modules, and sensors for retrofit installations.

More than "one" free lunch!

Not only are we offering a free lunch while you are here, we are offering you one for the road. Come and collect a coupon for another free lunch from **OKLAHOMA JOE'S**.

Product Demos 10:00am – 3:00pm

Vendors will be here to show:

Wonderware - Industrial Application Server with a new Sequencer Object

ABB Drives – Dynamometer Demo and Drives

ABB Controls – Soft Starter, Circuit Breakers, and Disconnects

CTI – New CPU replacement for TI 545/555

Horner – New OCS units combining logic and HMI

GE Fanuc – PAC Systems next generation PLC, 90-30, VersaMax

Foxboro – New InFusion Enterprise Control Solution

Parker Motion – Electro-Mechanical solutions for precision motion control

Parker CTC – Complete line of machine control interface

MDS – Long range wireless serial, Ethernet, and I/O communications with iNet, TransNet, and NetI/O radios

Arista– Industrial PCs, Flat-panel monitors

Moxa – Industrial hardened Ethernet switches and other communications devices

Turck – Rugged solutions for I/O and cabling

Animatics – Integrated motor/controller packages

NSK – Mechanical components for motion control

Schaefer Enclosures – Custom electrical enclosures

eRPortal – Asset Management Software with data integration to Wonderware software

Foxboro DCS Trailer

Lunch: Oklahoma Joe's 11:45-1:15

RSVP: Please let us know you're coming to lunch or seminars.
