Promoting technical solutions to ensure your success with automation

Logic

SCADA/Enterprise Manufacturing Intelligence/Software

Wonderware — Over 30 products geared toward gathering, historizing, and displaying plant data to enable better-informed business decisions

FOXBORO — Control systems for critical hazardous operation along with down-time minimizing migration strategies for modernizing competitive DCS

Kepware — Connects HMI and SCADA software via 25 protocols to thousands of different devices

eRPortal — Custom maintenance/asset management software with SCADA integration

Longwatch — Video surveillance & console recording over nearly any type of network (even fieldbus)

Software toolbox — Solutions in industrial software including Active X controls, DDE servers, OPC severs, and development toolkits

MDT software — Version control software minimizes downtime and safety issues by maintaining Systems Platform, HMI, PLC and other programs

Win-911 — Notifies the right people at the right time about alarms via telephone, email, paging, and 2-way messaging

Industrial Computing

ARISTA — We partner with several manufactures to deliver your industrial computing hardware needs, including:

CTC / Parker Automation

ADVANTECH eAutomation

AAEON — Computing Platform Service Partner

* Panel PCs
* Factory Displays
* Thin Clients
* Rackmount PCs/Servers
* Box PCs
* Tablets

ACP Automation Control Products — Thin client management plus a host of added features not expected from a thin client

iKey — Displays and peripherals for industrial computing applications

Drives and Motors

ABB — Easy to configure AC/DC VFDs with several families allowing a match between your price point vs. performance needs

BALDOR A MEMBER OF THE ABB GROUP — Energy efficient UL motors including the popular Super-E family

TCI — Protect your drive & motor investments with reactors and filters

Machine Control

GE Intelligent Platforms — Innovative PLCs, PACs, I/O, and safety products combine affordability, reliability, and performance

JOKAB SAFETY A MEMBER OF THE ABB GROUP — Patented solutions for increasing safety while decrease hardware costs

CTI — PLC solutions ideal for process control plus solutions that extend the life of your existing TI-505 investment

HORNER ELECTRIC — Physically and programmatically integrated HMI/PLC combos plus free traditional and IEC 61131-3 programing software

TURCK works — Programmable I/O, IS barriers, RFID and sensors

WAGO — Smart configurable I/O programmable in IEC61131-3

Human Machine Interface & OIT

Wonderware® — Full-featured HMI solutions with easy integration within larger SCADA systems

CTC Parker Automation — Choose from fast, distributed, or full-featured HMI solutions with USA made hardware

High-end HMI's (with or without control) with integrated development with GE PLC/PAC products — **GE Intelligent Platforms**

Affordable HMIs and OITs with an even more affordable development environment — **Maple Systems Inc.**

Communication & Networking

GE MDS — Licensed & unlicensed data radios and wireless I/O

TURCK works — Fieldbus cabling & I/O nodes, switches, and ethernet in assorted packages

ProSoft TECHNOLOGY — Wireless radios and cellular modems for control /monitoring connectivity

HMS netbiter® Anybus® — Protocol converters, device servers, and remote management

Ethernet switches, routers, protocol converters, video, USB, cellular, and embedded computers — **MOXA**

Protocol converters and modems (including cellular) for varied application — **Digi®**

Full line of Ethernet products, plus protocol converters for many applications — **ADVANTECH eAutomation**

Precision Motion Control & Mechanics

Parker Automation — Complete motion solutions including everything from the mechanics to the controller and HMI

BALDOR A MEMBER OF THE ABB GROUP — Programmable motion controllers, drives and motors

MOOG ANIMATICS — Packaged servo motor, drive, and controller physically integrated for simplicity and panel space benefits

Empire Magnetics Inc. — Extreme environment servo motors plus repair solutions for competitive obsolete offerings

Brushless AC servos, digital amplifiers, linear motors, direct drive motors, and multi-axis controllers — **YASKAWA The Drive for Quality™**

Stepper motor, drive, and controller physically integrated for simplicity, panel space, and costs savings — **IMS INTELLIGENT MOTION SYSTEMS, INC. by Schneider Electric**

Manufacturer of ball screws, linear actuators, linear motion modules, linear motors, guideways, encoders, and drive motors — **HIWIN®**

Panel Equipment

ABB — One-stop-shop for circuit breakers, motor starters, pilot devices, and soft starts

PULS — Compact high-efficiency cabinet power supplies

Pfannenberg ELECTRO-TECHNOLOGY FOR INDUSTRY — Filter fans, air conditioners, heaters, and thermostats protecting your panel investment

Polycarbonate enclosures for industrial applications — **FIBOX Enclosing innovations**

Carbon and stainless steel enclosures optionally customized for your application — **SCHAEFER'S ELECTRICAL ENCLOSURES**

Logic Responsibility

Every individual at Logic, Inc. will stand behind the decision to promote a given product or solution, and any member has the authority to bring in others who may have more expertise in a given field. We work as a team to provide you products and solutions that fit your needs.

Logic Technical Foundation

We commit to having extensive first-hand knowledge of the products and technologies we promote. To this end, we engage our personnel in detailed manufacturers' training, in-house product set-up and mastery, as well as on-site demonstrations of customer-specific solutions.
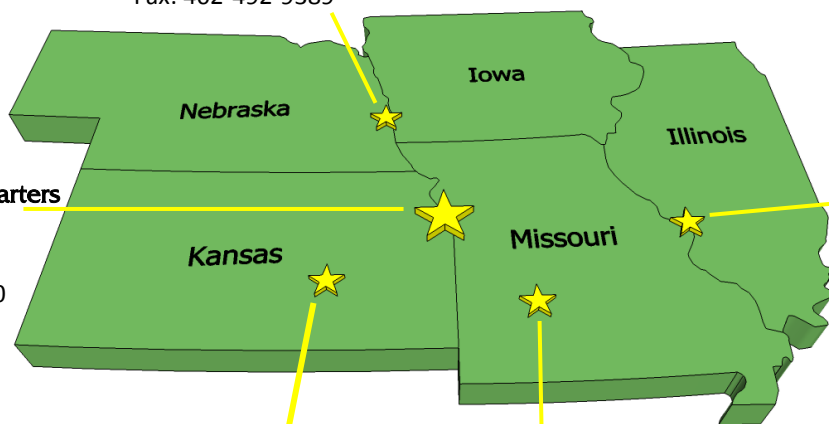

Logic Bottom Line

Our success depends on your success. You have the vision and the details of your desired outcome — we have the technologies to make it a reality. We will only recommend solutions that fit for your situation and organization.

Logic, Inc. Omaha
3738 S. 149th St. #102
Omaha, NE 68144
