

Large Training Room

10:00 - When AppEngines Attack

A discussion of tips and tricks for diagnosing, troubleshooting, and optimizing your Wonderware System Platform installation.

11:00 - A Very Different PLC

See how GE's radical new PLC concept does away with classic architecture and offers something new, different, and flexible.

12:00 – Lunch (Courtesy of Arista)

1:00 - More Than Just OPC

Did you know you could do math and logic on tags in your Kepware OPC/DA Server? Find out about this and much more.

2:00 - InTouch on Your IPAD

ThinManager 6 introduces a full blown client for your IPAD, allowing you to take your InTouch with you.

Small Training Room

10:00 - Extend Your Wireless Ethernet Range

Limited distance range gets in the way when using wireless Ethernet. We discuss ways to blow through that limitation.

11:00 - Your Dashboard for Plant Performance

See how Wonderware Performance software helps you get the most out of your production equipment.

12:00 – Lunch (Courtesy of Arista)

1:00 - A Flight Recorder For Your Control Room

Stuff happens. Only some of it is captured in your Historian. See how to use video as part of your process history, to aid in compliance, and train operators.

2:00 – The New Horner All-In-One

Sometimes you have a unique situation where your go-to solutions don't quite fit. In this seminar we'll take a look at an easy-to-use alternative that might just be that perfect fit.
