

Tech Services Engineer

Logic works with customers to strategize, specify, implement, and support automation technology.

Engineering in Logic's Tech Services Team involves ...

- *pre-sales system consulting*
- *post-sales system support*
- *customer demonstrations*
- *technical training*
- *customer design projects*
- *internal design projects*

It is an exciting and rewarding career for those who are competent in engineering and enjoy working with people.

Engineers promoting
solutions that ensure your
success in automation

TECH SERVICES ENGINEER

Consider...
Logic, Inc.

Our Competitive Edge

Companies team with Logic because we employ sharp engineers to create solutions they can count on and provide unparalleled technical support.

Consider Logic if you...

- like interacting with people,
- crave working with new technology,
- enjoy a family atmosphere.

Why Engineers?

Logic starts with the fundamentals you've learned in school about technology and problem solving. We then train you to be able to solve companies' hardest automation problems with systems built from the products we promote.

Our tagline really says it all:

Engineers promoting solutions to ensure your success in automation projects.

Benefits

- Logic contributes the equivalent of 15% of your salary to your retirement plan.
- 401k for those who wish to save more.
- Two bonuses per year are paid based on the profitability of the entire company.
- Comprehensive medical plan with no premium for full family coverage.
- No cubicles! You'll have your own private office. Yes, with a door.
- Opportunities to get out of the office to work with people applying our technologies.
- Toys! We're technology people. Of course you'll have hot computers, laptop, and an iPhone (sorry, Android folks).
- Flexibility. You'll work with many different industries, but also explore projects that interest you and would benefit Logic.

About Logic

Logic, Inc. was founded in 1981 by Bob VanLandingham, selling automation controllers from the back of his Ford.

Now we have offices in 5 cities and over 30 employees (well, 31 counting you).

We're a high-tech, fast-growing company, with small-company, family-friendly priorities.

HQ is outside KC in Olathe, KS with offices in Wichita, St. Louis, Springfield, and Omaha.

What our Employees Have to Say...

"No other job opportunity offers the diversity of applications and vision into manufacturing environments as this—it's 'How It's Made' up close and personal."

-Kris (With Logic Since 1991)

*"Logic takes good care of its customers **and** employees. I can't imagine working anywhere else."*

-Carrie (With Logic Since 2004)
