English Glass Sound Speaker

Before operating the speaker, please read this guide thoroughly and retain it for future reference.
This product is not suitable for household room illumination.

WARNING

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of fire, do not cover the ventilation opening of the appliance with newspapers, tablecloths, curtains, etc. Do not expose the appliance to naked flame sources (for example, lighted candles).

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus.

Do not install the appliance in a confined space, such as a bookcase or similar unit.

Do not expose batteries or apparatus with battery installed to excessive heat such as sunshine, fire or the like.

As the main plug is used to disconnect the system from the mains, connect the system to an easily accessible AC outlet. Should you notice an abnormality in the system, disconnect the main plug from AC outlet immediately.

The system is not disconnected from the mains as long as it is connected to the AC outlet, even if the system has been turned off.

CAUTION
You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

Notice for customers: the following information is only applicable to equipment sold in countries applying EU directives

This product has been designed and manufactured by Sony Corporation, 1-7-1 Konan Minato-ku Tokyo, 108-0075 Japan. Inquiries related to product compliance based on European Union legislation shall be addressed to the authorized representative. Sony Belgium, bijkantoor van Sony Europe Limited, De Vlaamsesteenbaan 7-D1, 1935 Zaventem, Belgium. For any service or guarantee matters, please refer to the addresses provided in the separate service or guarantee documents.

The validity of the CE marking is restricted to only those countries where it is legally enforced, mainly in the countries EEA (European Economic Area).

Hereby, Sony Corp., declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
For details, please access the following URL:

Disposal of Old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on the packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the responsible collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health.

The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

Disposal of waste batteries (applicable in the European Union and other European countries with separate collection systems)

This symbol on the battery or on the packaging indicates that the battery provided with this product shall not be treated as household waste.

On certain batteries this symbol might be used in combination with a chemical symbol. The chemical symbols for mercury (Hg) or lead (Pb) are added if the battery contains more than 0.0005% mercury or 0.004% lead.

By ensuring these batteries are disposed of correctly, you will help prevent potentially negative consequences for the environment and human health which could otherwise be caused by inappropriate waste handling of the battery. The recycling of the materials will help to conserve natural resources.

In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only.

To ensure that the battery will be treated properly, hand over the product at end-of-life to the applicable collection point for the recycling of electrical and electronic equipment.

For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the applicable collection point for the recycling of waste batteries.

For more detailed information about recycling of this product or battery, please contact your local Civic Office, your household waste disposal service or the shop where you purchased the product.

This equipment has been tested and found to comply with the limits set out in the EMC Directive using a connection cable shorter than 3 meters.

Do not subject the system to strong impact.

Do not subject the system to excessive force or strong impact. A portion of the system is made of organic glass. Chipped or broken glass may result in injury. In the case of broken glass, stop use immediately and be careful not to touch the broken area.

Precautions

On safety

The nameplates are located on the bottom exterior of the speaker and the surface of the AC adapter.

• Before using the AC adaptor, be sure that the operating voltage is identical with that of your local power supply.

Where purchased	Operating voltage
All countries/regions	100 V - 240 V AC, 50 Hz/60 Hz

Precautions

On safety

The nameplates are located on the bottom exterior of the speaker and the surface of the AC adapter.

• Before using the AC adaptor, be sure that the operating voltage is identical with that of your local power supply.

• We do not take any responsibility for the leakage of information during BLUETOOTH communication.
• A device feature the BLUETOOTH function is required to conform to the BLUETOOTH standard specification. Bluetooth SBC and its authentication. Even if the connected device conforms to the above mentioned BLUETOOTH standard, some devices may not be connected or work correctly, depending on the features or specifications of the device.
• Noise or sound skips may occur depending on the BLUETOOTH device connected with the system, the communication environment or the usage environment.

On placement
• The speaker unit, built-in amp, and cabinet are precisely tuned. Do not dismantle, modify, etc.
• Do not splash water onto this product. The product is not waterproof.
• Do not leave the speaker in a location near heat sources, or in a place subject to direct sunlight, excessive dust, moisture, rain or mechanical shock.
• Do not set the speaker in an inclined position. Otherwise, the speaker's vibrations may cause it to fall, leading to a malfunction, damage or reduced performance.
• Orient the speaker so that the passive radiator is facing up. Setting the speaker upside-down or on its side may reduce its sound output and reduce performance.
• Use caution when placing the speaker on a specially treated (waxed, oiled, polished, etc.) surface, as staining or discoloration may result.
• Depending on the placement situation, the speaker may fall or drop. Do not leave any valuable objects near the speaker.
• When carrying the speaker, be careful of the following.
– Do not grip the organic glass cylinder.
– Do not hit the speaker against objects.
• Do not leave any objects susceptible to magnetism (cash cards, floppy disks with magnetic coding, etc.) near the speaker.
• If the speaker is dirty, wipe the cabinet with a soft cloth dampened with mild detergent. Do not use benzene, alcohol, thinner, detergent, etc. because they will damage the surface finish. For information on cleaning the organic glass cylinder, see "On handling the organic glass cylinder".

On temperature rise
• If the product is used for an extended period of time, the temperature of the product will rise.
• This is not a malfunction.

On organic glass
The speaker uses organic glass.
Misusing the organic glass may cause the glass to break, cause injury, or sometimes lead to blindness. It may also have adverse effects on the sound quality, illumination, etc. To avoid an accident, be sure to adhere to the following.
• Do not subject the speaker to strong impact, such as dropping it from a high place or hitting it against something. If you hit the speaker against a hard object, even without strong force, the organic glass may break, crack, chip, or warp, causing failure or low performance.
• Do not scratch the organic glass.
Small cracks and chips can cause the organic glass to break. If the glass cracks but does not immediately break, it may break suddenly at an unexpected time. Small chips, small cracks and large cracks can have a strong negative impact on sound quality, illumination, and other factors.
• Do not subject the speaker to extreme temperature changes.
The organic glass is not heat resistant. Do not place the speaker near or on top of hot objects. Extreme temperature changes may cause the glass to break or warp.
• If you notice any cracks, chips, breaks, or other abnormalities in the organic glass cylinder, contact your nearest Sony dealer.

On handling the organic glass cylinder

• Without using strong force, brush away dust with a soft brush or feather duster, and use the supplied cleaning cloth to wipe the organic glass clean. (Do not use a scrubbing brush, sponge, etc.)
• If the organic glass is oily or covered in fingerprints, breathe onto it and use the supplied cleaning cloth to wipe it off.

• If the organic glass is exceptionally dirty, wipe it with a soft cloth that has been dampened with cold or lukewarm soapy water.
• Do not use benzene, alcohol, thinner, detergent, etc. because they will damage the surface finish.
• The inside of the cylinder was made such that dust will not stick, so do not dismantle it.

On the organic glass cylinder illumination

• Do not look directly into the illumination.
Because each illumination LED is made by hand, there may be unique variations in the shape, brightness, and color. This is an intentional design aspect and not a problem with the function or performance of the speaker.

Notes on the AC adaptor

• When disconnecting the AC adaptor from the mains, do not pull on the cord. Make sure to grasp the power plug when disconnecting.

• When connecting or disconnecting the AC adaptor, turn off the speaker beforehand. Otherwise, it may cause malfunction.

• Use only the supplied AC adaptor. To avoid damaging the speaker, do not use any other AC adaptor.

• The supplied AC adaptor was made exclusively for this speaker. It cannot be used with other devices.

Others

• For details on operating your mobile phone or wireless device, refer to the operating instructions supplied with the mobile phone or wireless device.

• Even if you do not intend to use the speaker for a long time, charge the battery to its full capacity once every 6 months to maintain its performance.

• If the speaker is not used for a long time, it may take longer to charge the battery.

• To protect the battery from high-temperature environments, charging may pause.

• If the duration that the speaker can be used shortens about half the normal time, consider the life span of the rechargeable battery. For information on replacing the rechargeable battery, consult your nearest Sony dealer.

• If you have any questions or problems concerning this speaker that are not covered in this manual, please consult your nearest Sony dealer.

Español Altavoz de cristal

Antes de utilizar el altavoz, lea esta guía con atención y consérvela por si le hace falta consultarla en el futuro.

Este producto no es adecuado para la iluminación de viviendas.

ADVERTENCIA

Para reducir el riesgo de incendios y descargas eléctricas, no exponga este equipo a la lluvia ni a la humedad.

Para reducir el riesgo de incendios, no obstruya la abertura de ventilación del aparato con periódicos, pañuelos, cortinas, etc. No exponga el aparato a directamente a llamas, como la de una vela encendida.

Para reducir el riesgo de incendios o descargas eléctricas, no exponga este equipo a goteos o salpicaduras, y no coloque objetos que contengan líquidos, como jarrones, sobre el equipo.

No sitúe el aparato en un espacio cerrado, como una estantería o una unidad similar.

No exponga las baterías ni el aparato con la batería instalada a un calor excesivo, por ejemplo, luz solar directa, lámparas, etc.

Come el enchufe se utiliza para desconectar el sistema de la corriente, conecte el sistema a una toma de CA de fácil acceso. Si nota cualquier comportamiento anómalo en el sistema, desconecte el enchufe de la toma de CA inmediatamente.

El sistema no está desconectado de la corriente mientras permanece conectado a la toma de CA, aunque haya apagado el sistema.

PRECAUCIÓN

Los cambios o las modificaciones realizadas sin una aprobación expresa en este manual pueden anular la autorización del usuario para utilizar el equipo.

Aviso para los clientes: la información siguiente resulta de aplicación solo a los equipos suministrados en paquetes afectados por las directivas de la UE
