WX-GT90BT

English

Cautions

Be sure to install this unit in the dashboard of the car as the rear side of the unit becomes hot during use.

- This unit is designed for negative ground (earth) 12 V DC operation only.
- Do not get the leads under a screw, or caught in moving parts (e.g. seat railing).
- Before making connections, turn the car ignition off to avoid short circuits.
- Connect the power supply lead ② to the unit and speakers before connecting it to the auxiliary power connector.
- Run all ground (earth) leads to a common ground (earth) point.

Be sure to insulate any loose unconnected leads with electrical tape for safety.

- Notes on the power supply lead (yellow)**
- When connecting this unit in combination with other stereo components, the connected car circuit's rating must be higher than the sum of each component's fuse.
 - When no car circuits are rated high enough, connect the unit directly to the battery.

Parts list

- The numbers in the list are keyed to those in the instructions.
- The bracket ⑤ is attached to the unit before shipping. Before mounting the unit, use the release keys ③ to remove the bracket ⑤ from the unit. For more details see "Removing the bracket ⑤" on the reverse side of the sheet.
- Keep the release keys ③ for future use as they are also necessary if you remove the unit from your car.

Caution
Handle the bracket ⑤ carefully to avoid injuring your fingers.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection diagram

Warning

If you have a power antenna (aerial) without a relay box, connecting this unit with the supplied power supply lead ② may damage the antenna (aerial).

- Notes on the control and power supply leads**
- REM OUT lead (blue/white striped) supplies +12 V DC when you turn on the unit.
 - When using an optional power amplifier, connect REM OUT lead (blue/white striped) to the accessory power supply lead (red) to its AMP REMOTE IN.
 - When your car has built-in FM/MW/LW antenna (aerial) in the rear/side glass, connect REM OUT lead (blue/white striped) to the accessory power supply lead (red) to the power terminal of the existing antenna (aerial) booster. For details, consult your dealer.
 - A power antenna (aerial) without a relay box cannot be used with this unit.

When the yellow power supply lead is connected, power will always be supplied to the memory circuit even when the ignition switch is turned off.

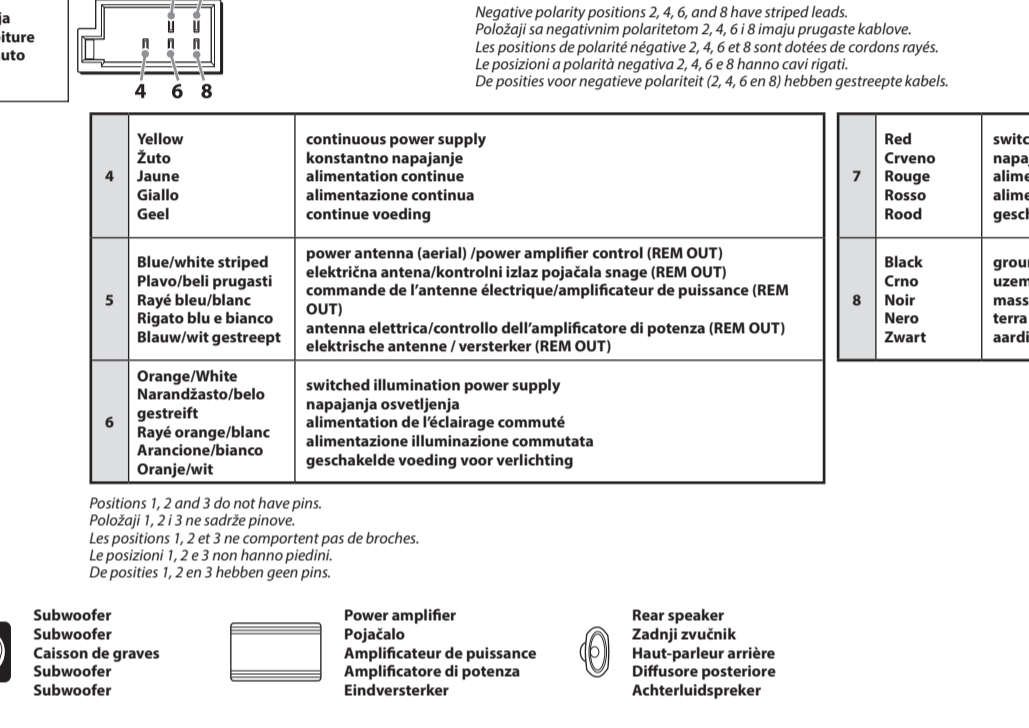

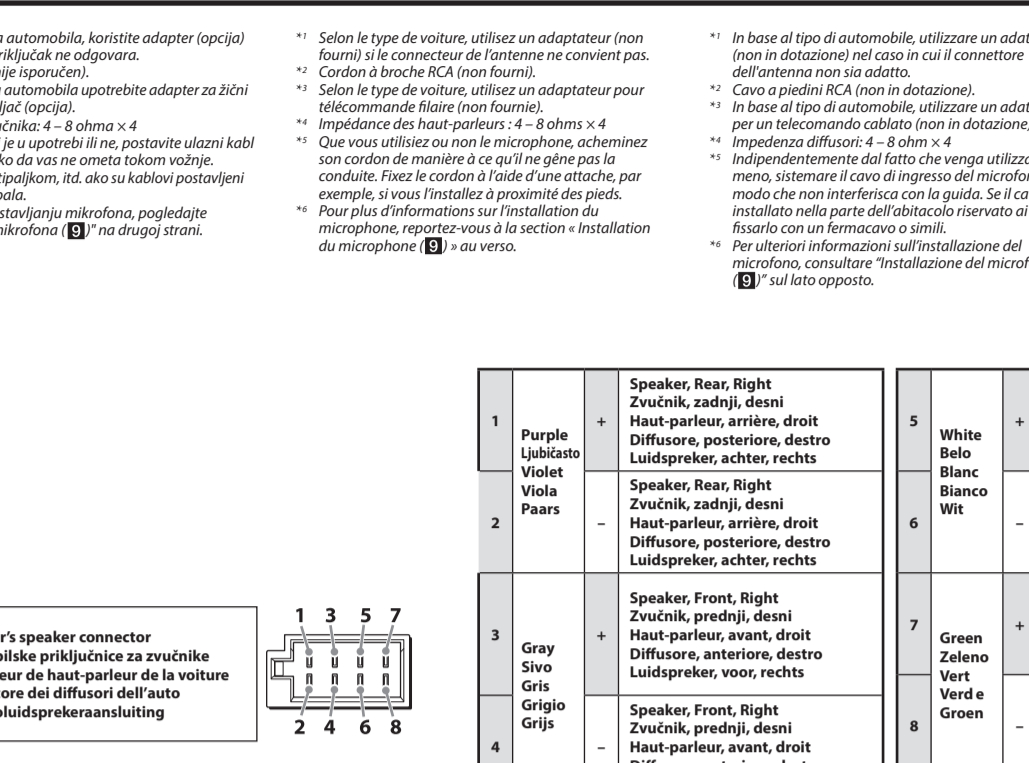

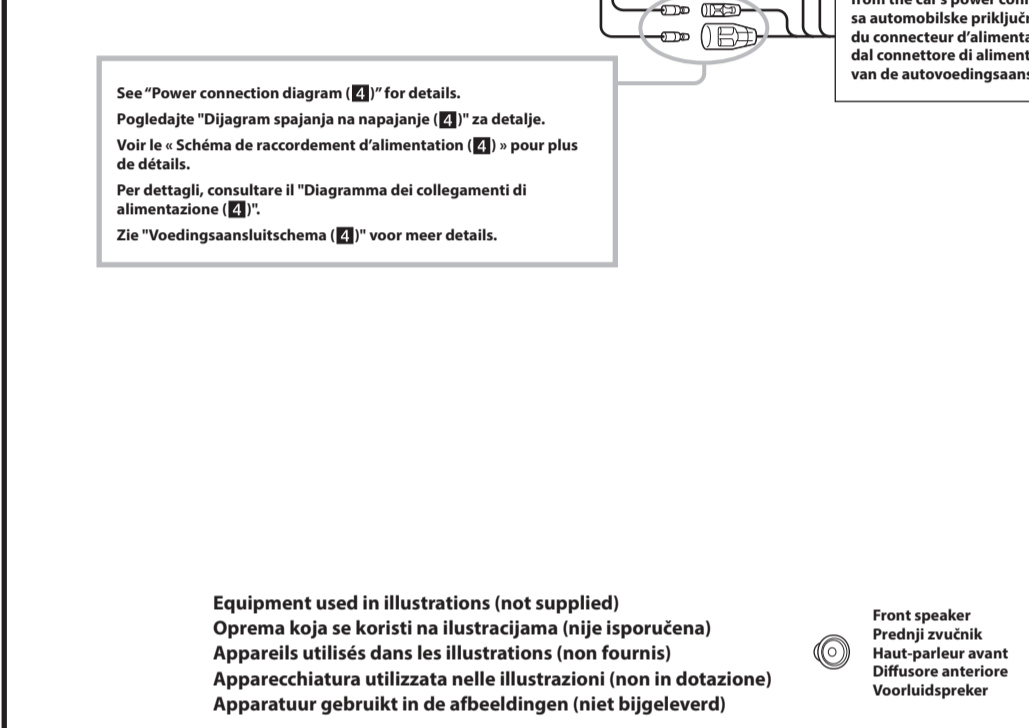

- Notes on speaker connection**
- Before connecting the speakers, turn the unit off.
 - Use speakers with an impedance of 4 to 8 ohms, and with adequate power handling capacities to avoid its damage.
 - Do not connect the speaker terminals to the car chassis, or connect the terminals of the right speakers with those of the left speakers.
 - Do not connect the ground (earth) lead of this unit to the negative (-) terminal of the speaker.
 - Do not attempt to connect the speakers in parallel.
 - Connect only passive speakers. Connecting active speakers (with built-in amplifiers) to the speaker terminals may damage the unit.
 - To avoid a malfunction, do not use the built-in speaker leads installed in your car if the unit shares a common negative (-) lead for the right and left speakers.
 - Do not connect the unit's speaker leads to each other.

Note on connection
If speaker and amplifier are not connected correctly, "FALLURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

Power connection diagram

Auxiliary power connector may vary depending on the car. Check your car's auxiliary power connector diagram to make sure the connections match correctly. There are three basic types (4-1, 4-2, 4-3). You may need to switch the positions of the red and yellow leads in the car stereo power supply lead.

After matching the connections and switched power supply leads correctly, connect the unit to the car's power supply. If you have any questions and problems connecting your unit that are not covered in this manual, please consult the car's dealer.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Srpski

Opresz

Povedite račun da ova uređaj ugradite u komandu tablu automobila, budući da se njegova zadnja strana tokom upotrebe zageva.

- Dizajn i tehnički podaci podložni su promeni bez najave.**
Proizvođač ne odgovara za eventualne štamparske greške.
- Ovaj uređaj je dizajniran samo za rad pri negativnom uzemljenju od 12 V DC.
- Prizajate da se kablovi ne priključe ispod vijka ili da ne ulivite pokretne delove (na primer, vodice sedišta).
- Pre povezivanja, isključite motor automobila kako biste izbegli pojavu kratkog spoja.
- Spojite kabl napajanja ② i zvučnike na uređaj pre spajanja na priključnicu pomoćnog napajanja.

Sprovedite sve kablove uzemljenja na zajedničku tačku uzemljenja.

- Sve kablove koji nisu spojeni izolujte izolir trakom radi sigurnosti.

Napomena o kablu napajanja (žuti)

- Kad spajate ovaj uređaj zajedno sa drugim audio komponentama, nazivni napon električnog sklopa automobila treba biti viši od zbiru osigurača svake komponente.
- Ako električni sklopovi automobila nemaju dovoljno veliki napon, spojite uređaj direktno na akumulator.

Lista delova

- Brojevi u listi odgovaraju onima u uputstvu.
- Nosač ① pričvršćuje se na uređaj pre isporuke. Pre ugradnje uređaja, ključevima za otpuštanje ③ uklonite nosač ① sa uređaja. Za detalje pogledajte "Skidanje nosača ①" na drugoj strani.
- Šačuvajte ključeve za otpuštanje ③ za budući upotrebu, pošto su potrebni i za uklanjanje uređaja iz vašeg automobila.

Primer povezivanja

Nosač ① držite pažljivo kako ne biste povredili prste.

Direktno spajanje subwofera (2-B)

Pojednosti o postavkama spajanja tražite u isporučenom uputstvu za upotrebu.

U ovom načinu povezivanja nemojte spajati zvučnik.

Napomena o spajanju
Pre spajanja pojačala, spojite kabl uzemljenja.

Dijagram spajanja

Uzopozorenje

Ako posedujete antenu bez releja, spajanjem ovog uređaja pomoću isporučenog kabla napajanja ② može doći do oštećenja antene.

- Napomena o kontrolnom kablu i kablu napajanja**
- Kabl REM OUT (prugaši plavo-beli) napaja uređaj sa +12 V DC kada uključite.
 - Kod korišćenja dodatno pojačala snage, spojite kabl REM OUT (prugaši plavo-beli) ili kabl napajanja za dodatni pribor (crveni) na njegovoj AMP REMOTE IN.
 - Ako je vaš automobil opremljen ugradnjom FM/MW/LW antenom na zadnjem/bodnom staklu, spojite REM OUT kabl antene (prugaši plavo-beli) ili kabl napajanja za dodatni pribor (crveni) na priključnicu napajanja postojećeg antenskog pojačala. Za detalje, obratite se vašem prodavcu.
 - Antena bez releja se ne može koristiti sa ovim uređajem.

Spajanje memorijskog napajanja
Kad je sprežen žuti kabl napajanja, napajanje se uključuje dostavljajući memo-rijskom sklopu (GKI) kod je prekidač napajanja isključen.

Napomena o spajanju zvučnika

- Pre spajanja zvučnika, isključite uređaj.
- Upotrebiti zvučnike impedanse 4 do 8 ohma i sa adekvatnim kapacite-tna iskoriscavanja napajanja, kako biste sprečili njihovo oštećenje.
- Nemojte spojiti priključke zvučnika na sasvu automobila niti zameniti priključke desni i levi zvučnika.
- Nemojte spojiti kabl uzemljenja ovog uređaja na negativnu (-) priklju-čnicu zvučnika.
- Ne pokušavajte da spojite zvučnike paralelno.
- Spojite samo pasivne zvučnike. Ukoliko spojite aktivne zvučnike (sa ugra-đenim pojačalima) na priključnice zvučnika, može doći do oštećenja uređaja.
- Kako biste izbegli kvar, nemojte koristiti ugrađene kablove zvučnika u vašem automobilu ako ugrađeni delovi zvučnika napajanja i kabl za dešne i leve zvučnike.
- Nemojte međusobno spojiti kablove zvučnika uređaja.

Napomena o spajanju

- Nosač ① pričvršćuje se na uređaj pre isporuke. Pre ugradnje uređaja, ključevima za otpuštanje ③ uklonite nosač ① sa uređaja. Za detalje pogledajte "Skidanje nosača ①" na drugoj strani.
- Šačuvajte ključeve za otpuštanje ③ za budući upotrebu, pošto su potrebni i za uklanjanje uređaja iz vašeg automobila.

Diagram spajanja na napajanje

Pomoćna priključnica napajanja može se razlikovati, zaviseo od automobila. Proverite dijagram pomoćnog napajanja vašeg automobila kako bi se utvrdilo da je povezanije pravilno uskladen. Postoje tri osnovna načina (4-1, 4-2, 4-3). Možda će biti potrebno zameniti položaje crvene i žute žice u kablu za napajanje audio uređaja u automobilu.

Nakon što uskladite povezivanja i žice napajanja sa prekida-čnu, spojite uređaj na napajanje automobila. Ako imate bilo kakva pitanja ili probleme prilikom spajanja uređaja, a da nisu obrađeni u ovom uputstvu, obratite se prodavcu automobila.

Napomena
Pre spajanja pojačala, spojite kabl uzemljenja.

Ako se se oglašiti samo ako koristite ugrađeno pojačalo.

- Depending on the type of car, use an adaptor (not supplied) if the antenna connector does not fit.
- ICA pin cord (not supplied).
- Depending on the type of car, use an adaptor for a wired remote control (not supplied).
- Speaker impedance: 4 - 8 ohms x 4
- Whether in use or not, route the microphone input cord such that it does not interfere with driving. Secure the cord with a clamp, etc. if it is installed around your feet.
- For details on installing the microphone, see "Installing the microphone ①" on the reverse side.

- Zavisno od tipa automobila, koristite adapter (opcijai) ako antenski priključak ne odgovara.
- ICA pin kabl (nije isporučena).
- Zavisno od tipa automobila upotrebite adapter za žični daljinski upravljač (opcija).
- Impedansa zvučnika: 4 - 8 ohma x 4
- Bez obzira da li je u upotrebi ili ne, postavite ulazni kabl za mikrofona tako da vas ne ometa tokom vožnje. Učvrstite kabl štapičkom, itd. ako su kablovi postavljeni blizu vaših stopala.
- Za detalje o postavljanju mikrofona, pogledajte "Postavljanje mikrofona ①" na drugoj strani.

- Selon le type de voiture, utilisez un adaptateur (non fourni) si le connecteur de l'antenne ne convient pas.
- Cordon à broche ICA (non fourni).
- Selon le type de voiture, utilisez un adaptateur pour télécommande filaire (non fourni).
- Impédance des haut-parleurs: 4 - 8 ohms x 4
- Que vous utilisez ou non le microphone, achenez son cordon de manière à ce qu'il ne gêne pas la conduite. Fixez le cordon à l'aide d'une attache, par exemple, si vous l'installez à proximité des pieds.
- Pour plus d'informations sur l'installation du microphone, reportez-vous à la section "Installation du microphone ①" au verso.

- In base of tipo di automobile, utilizzare un adattatore (non in dotazione) nel caso in cui il connettore dell'antenna non sia adatto.
- Cavo a piedini ICA (non in dotazione).
- In base al tipo di automobile, utilizzare un adattatore per un telecomando cablatto (non in dotazione).
- Impedanza diffusore: 4 - 8 ohm x 4
- Indipendentemente dal fatto che venga utilizzato o meno, sistemare il cavo di ingresso del microfono in modo che non interferisca con la guida. Se il cavo è installato nella parte dell'abitacolo riservata ai piedi, fissarlo con un fermacavo o simili.
- Per ulteriori informazioni sull'installazione del microfono, consultare l'installazione del microfono ① sul lato opposto.

- Afhankelijk van het soort wagen gebruikt u een adapter (niet bijgeleverd) als de antenneconnector niet past.
- Ijdelstekersknoor (niet bijgeleverd).
- Afhankelijk van het soort wagen gebruikt u een adapter voor een bedrade afstandsbediening (niet bijgeleverd).
- Onafhankelijk van de gebruikte microfoon, zorg ervoor dat de microfoonvoedingkabel u niet kan hinderen tijdens het rijden. Bevestig de kabel met een kleem enz. als deze in de buurt van uw voeten geïnstalleerd is.
- Meer informatie over de installatie van de microfoon vindt u onder "De microfoon installeren ①" op de keerzijde.

- Dependendo do tipo de veículo, utilize um adaptador (não fornecido) se o conector da antena não couber.
- Fio de conexão ICA (não fornecido).
- Dependendo do tipo de veículo, utilize um adaptador para controle remoto com fio (não fornecido).
- Impedância dos alto-falantes: 4 - 8 ohms x 4
- Independentemente de você usar ou não o microfone, fixe o cabo de entrada do microfone de modo que não interfira com a direção. Se o cabo estiver instalado na parte do habitáculo reservada aos pés, fixe-o com um travessão ou similar.
- Para mais informações sobre a instalação do microfone, consulte a instalação do microfone ① no verso.

- Jeżeli w zależności od rodzaju samochodu, użyć adaptera (nie w zestawie), jeżeli wtyczka anteny nie pasuje.
- Kabel ICA (nie w zestawie).
- Jeżeli w zależności od rodzaju samochodu, użyć adaptera do przewodowego pilota (nie w zestawie).
- Impedancja głośników: 4 - 8 omów x 4
- Niezależnie od tego, czy użyjesz mikrofonu, upewnij się, że kabel wlotowy mikrofonu nie przeszkadza przy prowadzeniu pojazdu. Jeśli kabel jest zamontowany w miejscu przeznaczonym dla stóp, zamocuj go klamką lub innym podobnym urządzeniem.
- Dla dodatkowych informacji o instalacji mikrofonu, zobacz instalację mikrofonu ① na odwrocie.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

Connection example

Subwoofer Direct Connection (2-B)
For details on the setting for the connection, see the supplied Operating Instruction.

- Notes**
- Be sure to connect the ground (earth) lead before connecting the amplifier.
 - The alarm will only sound if the built-in amplifier is used.

English

Precautions

- Choose the installation location carefully so that the unit will not interfere with normal driving operations.
- Avoid installing the unit in areas subject to dust, dirt, excessive vibration, or high temperature, such as in direct sunlight or near heater ducts.
- Use only the supplied mounting hardware for a safe and secure installation.

Mounting angle adjustment

Adjust the mounting angle to less than 45°.

Removing the bracket (5)

Before installing the unit, remove the bracket (5) from the unit.

- 1 Insert both release keys (3) together between the unit and the bracket (5) until they click.
- 2 Pull down the bracket (5), then pull up the unit to separate.

Mounting example (6)

Installation in the dashboard

Notes

- Before installing, make sure that the catches on both sides of the bracket (5) are bent inwards 3.5 mm (1/8 in). If the catches are straight or bent outwards, the unit will not be installed securely and may swing out. (6-1).
- Bend these claws outward for a tight fit, if necessary. (6-2).
- Mount the unit onto the supplied bracket (5). (6-3).

Mounting the unit in a Japanese car (7)

You may not be able to install this unit in some makes of Japanese cars. In such a case, consult your Sony dealer.

When mounting this unit to the preinstalled brackets of your car, use the supplied screws (8) in the appropriate screw holes, based on your car: T for TOYOTA, M for MITSUBISHI and N for NISSAN.

Notes

- Before attaching the double-sided tape (9), clean the surface of the dashboard with a dry cloth.
- Adjust the microphone angle to the proper position.
- The microphone (3) can be installed without using the clip (6). In this case, directly attach the microphone to the dashboard with the double-sided tape (9). Keep the unused clip (6) for future use.

Remark

To prevent malfunction, install only with the supplied screws (8).

Warning if your car's ignition has no ACC position

Be sure to set the Auto Off function. For details, see the supplied Operating Instructions. The unit will shut off completely and automatically in the set time after the unit is turned off, which prevents battery drain. If you do not set the Auto Off function, press and hold (SOURCE/OFF) until the display disappears each time you turn the ignition off.

Fuse replacement (8)

When replacing the fuse, be sure to use one matching the amperage rating stated on the original fuse. If the fuse blows, check the power connection and replace the fuse. If the fuse blows again after replacement, there may be an internal malfunction. In such a case, consult your nearest Sony dealer.

Installing the microphone (9)

To capture your voice during handsfree calling, you need to install the microphone (supplied).

Cautions

- Keep the microphone away from extremely high temperatures and humidity.
- It is extremely dangerous if the cord becomes wound around the steering column or gearstick. Be sure to keep it and other parts from obstructing your driving.
- If airbags or any other shock-absorbing equipment is in your car, contact the store where you purchased this unit, or the car dealer, before installation.

9-A Installing on the sun visor

- 1 Install the microphone (3) on the clip (6).
- 2 Install the clip (not supplied) on the sun visor.
- 3 Install clips (not supplied) and adjust the length and position of the cord so that it does not obstruct your driving.

9-B Installing on the dashboard

- 1 Install the microphone (3) on the clip (6), then place the cord along the groove of the clip (6).
- 2 Attach the clip (6) to the dashboard with the double-sided tape (9).
- 3 Install a clip (not supplied) and adjust the length and position of the cord so that it does not obstruct your driving.

Napomene

- Prije lepljenja dvostrane trake (9), očistite površinu kontrolne table suhom krpom.
- Podestite ugao mikrofona u pravilan položaj.
- Mikrofona (3) se može postaviti bez upotrebe hvataljke (6). U tom slučaju pričvrstite mikrofona direktno na kontrolnu tablu pomoću dvostrane lepljive trake (9). Neupotrebijenu hvataljku (6) sačuvajte za buduću upotrebu.

Srpski

Mere opreza

- Pažljivo odaberite mesto postavljanja tako da uređaj ne ometa normalne postupke tokom vožnje.
- Izbegavajte postavljanje uređaja u područja podložna prašini, prljavštini, snažnim vibracijama ili visokim temperaturama, na primer, na direktnom sunčevom svetlu ili blizu izlaza toplog vazduha.
- Koristite samo isporučeni pribor za postavljanje, radi sigurne i pravilne ugradnje.

Podšavanje ugla postavljanja

Podestite ugao postavljanja na manje od 45°.

Skidanje nosača (5)

Pre ugradnje uređaja, skinite nosač (5) sa uređaja.

- 1 Postavite oba ključa za otpuštanje (3) između uređaja i nosača (5), sve dok ne kliknu.
- 2 Povuците nosač (5) prema dole, zatim povuците uređaj prema gore kako biste ih razdvojili.

Primer ugradnje (6)

Ugradnja u kontrolnu tablu vozila

Napomene

- Pre ugradnje, proverite da li su lukice na obe strane nosača (5) savijene prema unutra za 3,5 mm. Ako su lukice ravne ili savijene prema spolje, uređaj neće biti sigurno ugrađen i postoji mogućnost 'sakaranja' uređaja (6-1).
- Ako je potrebno, savijte stezne imovne prema spolja radi boljeg pričvršćivanja (6-2).
- Ugradite uređaj na isporučeni nosač (5). (6-3).

Ugradnja uređaja u japanski automobil (7)

Možda nećete moći da ugradite ovaj uređaj u određene modele japanskih automobila. U tom slučaju se obratite Sony dobavljaču.

Prilikom ugradnje ovog uređaja u ugrađene nosače automobila, zavrnite isporučene vijke (8) u odgovarajuće otvore za vijke, u skladu sa vašim automobilom: T za TOYOTA, M za MITSUBISHI i N za NISSAN.

Napomene

- Prije lepljenja dvostrane trake (9), očistite površinu kontrolne table suhom krpom.
- Podestite ugao mikrofona u pravilan položaj.
- Mikrofona (3) se može postaviti bez upotrebe hvataljke (6). U tom slučaju pričvrstite mikrofona direktno na kontrolnu tablu pomoću dvostrane lepljive trake (9). Neupotrebijenu hvataljku (6) sačuvajte za buduću upotrebu.

Remarque

Pour éviter tout mauvais fonctionnement, utilisez exclusivement les vis fournies (8) pour l'installation.

Français

Précautions

- Choisir soigneusement l'emplacement de l'installation afin que l'appareil ne gêne pas la conduite normale du véhicule.
- Éviter d'installer l'appareil dans un endroit exposé à de la poussière, de la saleté, des vibrations violentes ou à des températures élevées, comme en plein soleil ou à proximité d'un conduit de chauffage.
- Pour garantir un montage sûr, n'utiliser que le matériel fourni.

Réglage de l'angle de montage

Ajuster l'inclinaison à un angle inférieur à 45°.

Retrait du support (5)

Avant d'installer l'appareil, retirez le support (5) de l'appareil.

- 1 Insérez les deux clés de déblocage (3) simultanément entre l'appareil et le support (5) jusqu'au déclic indiquant qu'elles sont en place.
- 2 Tirez le support (5) vers le bas, puis tirez l'appareil vers le haut pour les séparer.

Exemple de montage (6)

Installation dans le tableau de bord

Remarques

- Avant l'installation, assurez-vous que les loquets des deux côtés du support (5) sont bien pliés de 3,5 mm vers l'intérieur. Si les loquets sont droits ou pliés vers l'extérieur, l'appareil ne peut pas être fixé solidement et peut se détacher (6-1).
- Pliiez ces griffes vers l'intérieur pour assurer une prise correcte si nécessaire (6-2).
- Montez l'appareil sur le support (5) fourni (6-3).

Montage de l'appareil dans une voiture japonaise (7)

Il est possible que vous ne puissiez pas installer cet appareil dans certaines marques de voitures japonaises. Dans ce cas, consultez votre revendeur Sony.

Lorsque vous montez cet appareil sur les supports préinstallés de votre voiture, utilisez les vis fournies (8) dans les trous appropriés, selon votre voiture : T pour TOYOTA, M pour MITSUBISHI et N pour NISSAN.

Remarque

Pour éviter tout mauvais fonctionnement, utilisez exclusivement les vis fournies (8) pour l'installation.

Italiano

Precauzioni

- Scegliere con attenzione la posizione per l'installazione in modo che l'apparecchio non interferisca con le operazioni di guida del conducente.
- Evitare di installare l'apparecchio dove sia soggetto ad alte temperature, come alla luce solare diretta o al getto di aria calda dell'impianto di riscaldamento, o dove possa essere soggetto a polvere, sporco e vibrazioni eccessive.
- Usare solo il materiale di installazione in dotazione per un'installazione stabile e sicura.

Regolazione dell'angolo di montaggio

Regolare l'angolo di montaggio in modo che sia inferiore a 45°.

Rimozione della staffa (5)

Prima di installare l'apparecchio, rimuovere la staffa (5) dall'apparecchio.

- 1 Inserire contemporaneamente entrambe le staffe (5) tra l'apparecchio e la staffa (5) fino a che non scattano in posizione.
- 2 Estrarre la staffa (5), quindi sollevare l'apparecchio per rimuoverlo.

Esempio di montaggio (6)

Installazione nel cruscotto

Note

- Prima di installare l'unità, accertarsi di ripiegare i fermi presenti su entrambi i lati della staffa (5) verso l'interno di 3,5 mm. Se i fermi sono dritti o ripiegati verso l'esterno, l'apparecchio non verrà installato in modo sicuro e potrebbe fuoriuscire (6-1).
- Piegarli verso l'interno per assicurare una presa corretta se necessario (6-2).
- Montare l'apparecchio sulla staffa in dotazione (5) (6-3).

Montaggio dell'apparecchio su un'auto giapponese (7)

Potrebbe risultare impossibile installare questo apparecchio su alcuni tipi di vetture giapponesi. In tal caso, rivolgersi al rivenditore Sony.

Durante il montaggio del presente apparecchio sulle staffe preinstallate dell'auto, inserire le viti in dotazione (8) negli appositi fori, in base al modello dell'auto: T per TOYOTA, M per MITSUBISHI e N per NISSAN.

Note

- Prima di applicare il nastro biadesivo (9), pulire la superficie del cruscotto con un panno asciutto.
- Regolare l'angolazione del microfono sulla posizione corretta.
- È possibile anche installare il microfono (3) senza utilizzare il fermaglio (6).

In questo caso, applicare direttamente il microfono al cruscotto utilizzando il nastro biadesivo (9). Conservare il fermaglio inutilizzato (6) per usi futuri.

Waarschuwing als het contactslot van de auto geen ACC-positie heeft

Zorg ervoor dat u de functie voor automatisch uitschakelen instelt. Raadpleeg de bijgeleverde gebruiksaanwijzing voor meer informatie. Het apparaat wordt na de ingestelde tijd automatisch volledig uitgeschakeld nadat het apparaat is uitgeschakeld. Zo wordt voorkomen dat de accu leegloopt. Als u de functie voor automatisch uitschakelen niet instelt, moet u (SOURCE/OFF) ingedrukt houden tot het display verdwijnt telkens wanneer u het contact uitschakelt.

Zekering vervangen (8)

Vervang een zekering altijd door een exemplaar van eenzelfde ampereage als op de oorspronkelijke zekering vermeld. Als de zekering doorbrandt, moet u de voedingsaansluiting controleren en de zekering vervangen. Brandt de zekering vervolgens nogmaals door, dan kan er sprake zijn van een defect in het apparaat. Raadpleeg in dat geval de Sony-dealer bij u in de buurt.

De microfoon installeren (9)

Om uw stem te kunnen registreren tijdens het handsfree bellen, moet u de microfoon (bijgeleverd) installeren.

- Opgelet. Stel de microfoon niet bloot aan extreem hoge temperaturen of aan een hoge vochtigheidsgraad.
- Het is uiterst gevaarlijk als de kabel rond de stuurkolom of de versnellingskolom verstrikt raakt. Zorg ervoor dat de kabel en andere onderdelen u niet kunnen hinderen tijdens het rijden.
- Als uw auto uitgerust is met airbags of andere shockdempende apparatuur, contacteer u de winkel waar u dit apparaat hebt gekocht of uw autodealer voor u het apparaat installeert.

9-A Bevestigen aan de zonneklep

- 1 Bevestig de microfoon (3) aan de klem (6).
- 2 Bevestig de klem (6) aan de zonneklep.
- 3 Gebruik klemmen (niet bijgeleverd) en pas de lengte en positie van de kabel aan zodat deze u niet hindert tijdens het rijden.

9-B Bevestigen op het dashboard

- 1 Bevestig de microfoon (3) aan de klem (6) en plaats de kabel in de gleuf in de klem (6).
- 2 Bevestig de klem (6) op het dashboard met behulp van de dubbelzijdige kleefband (9).
- 3 Gebruik een klem (niet bijgeleverd) en pas de lengte en positie van de kabel aan zodat deze u niet hindert tijdens het rijden.

Opmerkingen. Voor u de dubbelzijdige kleefband vastmaakt (9), reinigt u het oppervlak van het dashboard met een droge doek. Breng de microfoon in de juiste hoek. De microfoon (3) kan ook geïnstalleerd worden zonder de klem (6) te gebruiken. Bevestig in dat geval de microfoon rechtstreeks op het dashboard met behulp van de dubbelzijdige kleefband (9). Bewaar de ongebruikte klem (6) voor toekomstig gebruik.

Opmerking. Om defecten te voorkomen, mag u alleen de bijgeleverde schroeven (8) gebruiken.
